SIXTEENTH YEAR

CLIFFORD E. WHITE
GROSSE ILE, MICHIGAN

Clifford E. White : Grosse Ile, Michigan

Varieties marked "C." are Cactus; "H. C." Hybrid Cactus; "D." Decorative; "S." Show.

AMUN RA (D.)	
Orange and bronze.....	\$.75
BASHFUL GIANT (D.)	
Apricot, golden suffusion.....	.50
CALIFORNIA ENCHANTRESS (H. C.)	
Light pink50
CALIFORNIA SUPERBA (D.)	
Light pink	1.00
CHAMPAGNE (D.)	
Golden champagne	1.00
CLIFFORD E. WHITE (D.)	
"This variety in form, habit, size and freedom reminds one of the popular Judge Marean, and like it, its colors vary as the flowers pass through different stages of development; having a combination of glowing salmon-pink, brilliant red, iridescent orange and gold, all blending most harmoniously, but all more intense and brilliant than in its prototype"—(Henry A. Dreer).....	1.00
DADDY BUTLER (HC.)	
Rose75
EARL WILLIAMS (D.)	
Crimson scarlet, tipped white.....	.75
ELDORADO (D.)	
Gold	1.50
E. T. BEDFORD (D.)	
Purple50
FAITH GARIBALDI (D.)	
Silvery pink	2.50
FLORENCE FINGER (D.)	
Dark rose50
FRANCIS LOBDELL (HC.)	
Pale pink, white center.....	.50
F. W. FELLOWS (C.)	
Orange scarlet50
GEO. WALTERS (HC.)	
Salmon pink and yellow.....	1.00
GLADYS SHERWOOD (HC.)	
White50
GOLDEN WEST (HC.)	
Golden buff40
INSULINDE (D.)	
Golden ochre, salmon-red suffusion....	.50

JUDGE MAREAN (D.)	
Orange and red50

Clifford E. White : Grosse Ile, Michigan

KITTIE DUNLAP (D.)	
American beauty rose	.75
LA FAVORITA (HC.)	
Brilliant orange	.50
LOTUS (D.)	
Orange	.50
MAID OF THE MIST (D.)	
Yellow tipped lilac	.50
MR. C. H. DRESSELHUIS (D.)	
Rose pink, white suffusion	.50
MR. CROWLEY (D.)	
Salmon pink on cream	1.00
MRS. ELEANOR MARTIN (D.)	
Mulberry, suffused gold	2.00
MRS. E. L. LINDSEY (D.)	
Scarlet and gold	.50
MRS. ETHEL F. T. SMITH (HC.)	
Creamy white	1.00
MRS. I. DE VER WARNER (D.)	
Mauve pink	.50
MRS. NATHANIEL SLOCOMBE (D.)	
Deep yellow	.50
MRS. THOS. BURCH (D.)	
Buff	.50
OSAM SHUDOW (D.)	
Old rose shading to yellow	.50
PATRICK O'MARA (D.)	
Orange buff	.50
PAUL MICHAEL (D.)	
Apricot and bronze	.50
POLAR BEAR (D.)	
White	.50
POP STEWART (D.)	
Lilac pink	3.00
PRINCESS PAT (D.)	
Old rose	.50
ROBERT TREAT (D.)	
American beauty rose shade	2.00
ROSA NELL (D.)	
Rose	1.00
SAGAMORE (D.)	
Lemon yellow to flesh ochre	2.50
SANHICAN RUBY (D.)	
Pigeons blood, bronze suffusion	2.00
ST. FRANCIS (D.)	
Soft cream with pinkish glow	2.00
SUSAN G. TEVIS (D.)	
Lilac with bluish sheen	1.50
SYDNEY JONES (C.)	
Deep pink tipped yellow	1.00
W. W. RAWSON (S.)	
White edged lavender	.50

POMPON DAHLIAS

Small, compact, long keeping flowers, splendid for cutting and for table decoration.

AIMEE

Bronze, very small40

ARIEL

Buff35

BELLE OF SPRINGFIELD, Red

One of the smallest40

BOBBY

Deep plum, very free35

DARKNESS

Deep maroon35

DEE DEE

A dainty lavender40

JOE FETTE

Probably the best white40

LITTLE JENNY

Primrose, very free35

LITTLE JEWEL, New

A beautiful pink50

TOM THUMB

Garnet red35

One each of the above ten varieties for \$3.00

Unless otherwise ordered, we do not begin shipping dahlia roots until May. In the northern states, May 15th to June 15th is the best time for planting.

All roots, bulbs or plants are guaranteed to be healthy, true to name and in growing condition when received.

Postage prepaid in United States on all orders amounting to \$1.00 or over. On less amounts, add 10 cents to prices named.

On all Canadian orders, add 10 cents per tuber.

EXTRACT FROM REPORT OF INSPECTOR

to the

STATE DEPARTMENT OF AGRICULTURE

Lansing, Michigan

Sept. 12, 1927.

Exceptionally nice Dahlias (various varieties) all O. K.

Exceptionally good care and vigor.

MICHIGAN STATE DEPARTMENT OF AGRICULTURE

Orchard and Nursery Inspection

CERTIFICATE OF NURSERY INSPECTION

This is to certify that the nursery stock of Clifford E. White, Grosse Ile, has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant diseases.

Fee paid, \$3.00.

HERBERT E. POWELL, Commissioner.

This Certificate to be Void after September 15, 1928.
Bureau of Agricultural Industry, A. C. Carton, Director.
E. C. Mandenberg, in Charge of Orchard and Nursery
Inspection.

Lansing, Mich., September 16, 1927.

MY CUSTOMERS

"Say it with flowers"

From Lexington, Ky.:

"Order received this morning in good condition. Have had orders delivered from four states this spring and your lot discounts them all. Thanks for promptness."

From Dayton, Ohio:

"The Dahlia bulbs you sent me arrived in fine shape, sprouts not being broken. Enclosed find money order for which please send me two more as good, as soon as possible."

From Independence, Mo.:

"I had Dahlia tubers from several different sources this spring but the ones you sent me were by long odds the best I received."

Addresses furnished on request.

My method of packing insures safe arrival anywhere. If anything is unsatisfactory when received, please notify me at once.

Cultural Directions

DAHLIAS will grow and bloom in almost any kind of soil, if well drained; but should not be too rich, as this will cause a rank growth of foliage at the expense of blooms. If planted in stiff clay, or if soil is very rich, the addition of a liberal amount of coal ashes or sand, well mixed in, will be very beneficial.

If soil is very poor, the addition of a little fine ground bone and tobacco dust, thoroughly incorporated, will give good results. If possible, plant where they will have full sunlight, and away from the roots of trees and hedges. The size of the tuber is of no consequence. A small tuber will give as good results as a large one. Always lay the tubers flat, with the sprout up, and cover with about six inches of soil. Plant the tubers four feet apart, if possible, and allow but one stalk to grow in each hill.

Do not plant too early; from the middle of May until the middle of June is best in the northern states.

When the young plants have two or three pairs of leaves, pinching out the center bud will cause them to branch out, making a stocky growth, but will retard the blooming period somewhat. Disbudding insures continuous bloom, longer stems, and larger and better flowers.

Clifford E. White : Grosse Ile, Michigan

The cut flowers will keep much longer if the buds and foliage are cut from the flower stems. If greenery is wanted, cut it separately from the flowers and both will keep better.

Thorough cultivation is necessary for best results; not only to keep down the weeds, but to conserve the moisture in the soil. When this is done, watering is seldom if ever necessary. Give the soil a thorough stirring as soon after every rain as the ground can be worked, and never allow it to become crusted.

When plants have been killed by the frost, cut off the stem close to the ground, dig carefully to avoid breaking, put in a box, stems down, cover with peat moss or other dry material, and store in a frost-proof cellar, away from furnace heat.
